PROFILE

Motivated and enthusiastic Computer Science and Engineering (Artificial Intelligence & Machine Learning) student with a strong foundation in programming, robotics, automation, and data analysis. Passionate about developing innovative solutions using AI, machine learning, embedded systems, and software development. Seeking opportunities to apply technical skills, gain industry experience, and contribute to impactful projects.

EDUCATION

SSC	2021-2022
Bhaskar English High School 85.2%	
Diploma in Automation & Robotics	2022-2025
Shivajirao S Jondhle Polytechnic 83.58%	
BTech in CSE(AIML)	2025-Present
Lokmanya Tilak College of Engineering (Pursuing)	

PROJECT

Smart Robotic Arm with Color Sorting System

Developed an IoT-based robotic arm using Arduino and ESP32 that automatically detects object colors and sorts them into designated locations. Implemented wireless communication, sensor integration, and automated servo control with manual override functionality.

Food Donation Management System

Developed a web-based platform that connects food donors and NGOs to reduce food wastage and improve food distribution. Implemented user registration, donation tracking, and request management features using Python, Django, PostgreSQL, HTML, CSS, and Bootstrap5 for efficient coordination and record management.

INTERNSHIP

Cyber Smart AI Prime Internship

- Cyber Suraksha Plus Program
- Successfully completed the Cyber Smart AI Prime Internship Program
 - Conducted under the Cyber Suraksha Plus initiative
 - Supported by Cisco CSR, DSCI, and NIIT Foundation
 - Completion Date: April 2026
